The statement in the caption to Fig. 1 “*Data taken from reference (38).*” (Kolhe P, Holding E, Lary A, Chico S, Singh SK. Large-scale freezing of biologics: understanding protein and solute concentration changes in a Cryovessel-part 2. Biopharm International. 2010;23(7):40–9) is erroneous.

Fig. 1 is in fact an adapted version of a figure from Zobrist et al. (Zobrist B, Soonsin V, Luo BP, Krieger UK, Marcolli C, Peter T, Koop T. Ultra-slow water diffusion in aqueous sucrose glasses. *Phys Chem Chem Phys*. 2011;13(8):3514–3526) where the original data sources are quoted in their caption.
